

*Archdiocese of Milwaukee  
Office for Schools*

# Curriculum Guide

## Grade 5

## **What is a Curriculum Guide?**

Academic excellence is a hallmark of Catholic schools in the Archdiocese of Milwaukee. To assist schools in maintaining academic excellence, the archdiocese’s Office for Schools has developed curriculum guides for grades 4K-8<sup>th</sup> that identify what we want our students to know and be able to do at the end of each grade based on national, state, and local standards. With these guides as a template, each individual school develops a plan to clearly articulate what is taught, how it is taught, and how student achievement is assessed for each grade. This process of “fine tuning” results in a school specific standards-based curriculum that guides teaching and learning.

## **Characteristics of a 5th Grader**

- ✓ Transitions into puberty with rapid physical and emotional changes
- ✓ Demonstrates marked differences between boys and girls and even among the same gender
- ✓ Becomes aware of past, present and future community experiences
- ✓ Belongs to one or more groups because of commitments, e.g., sports, fun, service
- ✓ Belongs to peer groups who often develop their own codes of behavior
- ✓ Begins to make choices independent of adults
- ✓ Recognizes signs and symbols in games, sports, clothes and professions
- ✓ Appreciates and develops personal talents and abilities
- ✓ Practices problem solving
- ✓ Begins to be aware of different customs and rituals among people
- ✓ Values success in sports and is influenced by sports figures

# RELIGION

## Creedal Church:

- Explains how environment is God’s creation and ours to respect
- Knows that God is the Creator, all-powerful, who made the world good
- Knows that the human race has a common origin reflected in the Adam and Eve story
- Knows and expresses belief that Jesus is the Son of God and the Word Made Flesh
- Understands Jesus as Savior and that “Jesus” means “God Saves”
- Understands that “Kingdom/Reign of God” is reflected in the good that happens in the world
- Knows and applies the concept of sacramentality: that Christ’s life-death-resurrection is celebrated at liturgy
- Identifies ways that the Church carries on the mission of Jesus under the leadership of popes and the bishops
- Explains the communion of saints
- Identifies past and present Christian role models, e.g., patron saints
- Knows that Mary is the Mother of God as she is the mother of Jesus the Christ
- Understands that Christ’s death and resurrection were part of God’s plan
- Knows that the Assumption celebrates Mary taken to heaven, body and soul
- Knows that after death comes judgment which leads to heaven, hell or purgatory
  - Knows an overview of the Bible, understanding that the Old Testament is fulfilled in the New Testament
  - Is able to locate and read from the Bible the stories for this age group as listed, e.g., Genesis, chapters 1-3, two versions of the creation story
  - Understands that there is one God (Deuteronomy 6:4-5)
  - Knows that the Holy Spirit works in the Church, in the Scriptures and in the lives of people as at Pentecost (Acts 2:1-4, 17)
- Knows about human sexual development and its sacredness
- Knows and lives the belief that all life is sacred

## Liturgy/ Sacrament:

- Knows the names, meanings, signs and symbols of each of the seven sacraments
- Celebrates the sacrament of Reconciliation
- Participates in the preparation of Eucharistic liturgies with class or group
- Recognizes the liturgical calendar and can explain the seasons of the Church year, their meanings and color
- Knows that the baptized share in the priesthood of Christ
- Understands the Sacrament of Holy Orders as the way Christ continues to preach and sanctify
  - Is able to locate, read from the Bible and understands each story listed below as it relates to the Scriptures
  - Experiences water, bread, oil and light as sacramental symbols (John 4:4-42)
  - + Recognizes Christ’s presence at Mass: in the assembly, the priest-president, the proclamation of the Word and especially in the Bread and Wine (John 6:1-58)
  - Recognizes the meaning and celebration of the Sacred Triduum and Easter as our central feast – Anointing at Bethany (Mark 14:3-9)
  - Knows that Baptism forgives original and personal sin – Nicodemus (John 3:1-21)
  - Knows Confirmation and Baptism relate to the mission of Jesus (Mark 1:9-11, Matthew 3:13-17); and service (Mark 10:44)
  - Understands that in the Sacrament of Matrimony, the family is seen as the “domestic Church” (John 2:1-11)
  - Understands the healing power of Christ in the Sacrament of the Sick (James 5:14-15)

## Moral Life:

- Understands that the presence of sin or evil in the world is “original sin” into which we are all born
- Recognizes attitudes and actions that are sinful or selfish
- Acts out of the belief that mercy and justice are essential to Christian living
- Follows Catholic Social Justice teaching by reaching out to others through positive words and actions
- Distinguishes between mortal (serious) and venial sin
- Has a working knowledge of the Beatitudes and Commandments and can apply them to daily life
- Understands the meaning of the four cardinal virtues: prudence, justice, temperance and fortitude
  - Practices forgiveness and being forgiven and knows forgiveness stories in Bible, e.g., (Matthew 18:21-22)
  - Begins to be aware of the need for on-going conversion (1Corinthians 13:4-8)

- Identifies private and special body parts and touches which can make one feel uncomfortable
- Can define bullying and harassment and recognizes when it occurs
- Knows how to use conflict management skills

#### Christian Prayer

- Participates in prayer services and other devotions, e.g., rosary, stations of the cross
- Prays the Our Father, Apostles Creed, Nicene Creed
- Knows how to pray the rosary
- Recognizes that Jesus prayed at decisive times in his life
- Prays to the saints in union with the Father, Son and Holy Spirit
- Prays in harmony with the seasons of the Church Year
- Understands the difference between the Mass, other communal prayer and private prayer
- Uses Scripture as a source of prayer and reflection

## ENGLISH LANGUAGE ARTS

### Language

- Identify relative conjunctions, correlative conjunctions, and interjections
- Recognize perfect verb tenses
- Recognize inappropriate changes in a verb tense
- Demonstrate command of standard English grammar and usage when writing
- Explain the functions of conjunctions, prepositions, and interjections
- Define when/how to form perfect verb tense
- Use verb tense to convey various times, sequences, states, or conditions
- Demonstrate command of standard English grammar and usage when speaking
- Use perfect verb tenses
- Use verb tenses to convey times, sequences, states, and conditions
- Correct inappropriate changes in verb tense
- Use correlative conjunctions
- Apply correct capitalization, punctuation, and spelling
- Use commas to separate items in a series
- Use a comma to separate introductory element from the sentence
- Use a comma to set off the words yes and no
- Use a comma to set off a tag questions from the sentence
- Know use of underlining and italics
- Use underlining, quotation marks, or italics to indicate titles
- Recall and apply spelling rules
- Identify and correct misspelled words
- Consult references as needed
- Recognize language conventions for reading, writing, listening, and speaking
- Recognize various sentence structures
- Apply language knowledge when reading, writing, and speaking
- Apply knowledge of language conventions when reading, writing, and listening
- Use knowledge of language conventions when speaking
- Expand, combine, and reduce sentences for meaning, interest, or style
- Identify and define Greek and Latin affixes and roots
- Identify common context clues
- Use common reference materials
- Use reference materials to find pronunciation
- Use reference materials to determine the meaning of key words
- Determine the meaning of words by examining a text
- Determine the meaning of words using Greek and Latin affixes and roots
- Choose from a range of vocabulary strategies to determine a word's meaning
- Define homograph
- Identify similes and metaphors
- Recognize idioms, adages, and proverbs

- Identify synonyms, antonyms, and homographs
- Interpret figurative language using similes and metaphors
- Explain the meanings of idioms, adages, and proverbs
- Utilize synonyms, antonyms, and homographs
- Acquire grade appropriate general and domain-specific academic words
- Know words that signal contrast, addition, and logical relationships
- Use grade appropriate general and domain-specific academic words
- Use vocabulary that signals contrast, addition, and other logical relationships
- Use general and domain-specific academic words and phrases
- Use words that signal contrast, addition, and other logical relationships

### **Reading Standards for Informational Text**

- Explain explicitness of text by quoting accurately  
Draw inferences
- Explain how supporting details determine the main idea
- Determine two or more ideas
- Explain how multiple ideas are supported by key ideas
- Summarize the multiple ideas using key details
- Define relationships and interactions
- Explain the relationships or interactions between individuals, events, ideas, and concepts
- Use specific information to support the relationship between individuals, ideas, and concepts
- Identify and apply general academic words and phrases
- Identify and apply domain-specific words and phrases
- Determine the meaning of general academic phrases
- Determine the meaning of domain-specific phrases
- Determine the overall text structure
- Describe the overall text structure
- Compare/contrast the overall structure of events, ideas, concepts, or information
- Define influences
- Identify narrator’s or speaker’s point of view
- Describe narrator’s or speaker’s point of view
- Identify relevant events
- Infer the characteristics of the narrator or speaker
- Describe how the narrator’s point of view influences descriptions
- Describe how the speaker’s point of view influences how the events are described
- Obtain information from sources
- Recognize digital sources
- Identify problem solving steps
- Collect information/data
- Locate an answer or solve problem efficiently from various print and digital sources
- Organize information to answer efficiently
- Identify an author’s particular points
- Identify which evidence and reasons support each point
- Explain how to use reasons to support points
- Explain how to use evidence to support points
- Identify information within several different texts on the same topic
- Integrate information from several different texts on the same topic
- Recall/understand key ideas and details
- Identify/understand craft and structure
- Recognize/understand integration of knowledge
- Comprehend key ideas and details
- Comprehend craft and structure
- Comprehend integration of knowledge

## Reading Standards for Literature

- Explain explicitness of text by quoting accurately
- Draw inferences using textual information
- Determine the theme of a story, drama, and poem
- Summarize text
- Explain how characters respond to challenges
- Explain how the speaker reflects upon a topic
- Summarize key ideas and details
- Summarize how characters respond to challenges
- Summarize how the speaker reflects upon a topic
- Define terms: compare and contrast
- Identify the character, setting, and/or event
- Identify similarities of characters, settings, or events
- Identify differences between characters
- Compare characters, settings, and events
- Contrast characters, setting, and events
- Recognize examples of figurative language
- Recognize similes and metaphors
- Determine the meaning of words
- Determine the figurative meaning of words and phrases
- Explain how a series of chapters, scenes, and stanzas fit together
- Explain how chapters, scenes, and stanzas provide overall structure
- Define influences
- Identify narrator's or speaker's point of view
- Identify relevant events
- Infer the characteristics of the narrator or speaker
- Describe how the narrator's point of view influences descriptions
- Describe how the speaker's point of view influences descriptions
- Define analyze
- Identify multimedia and visual elements
- Recognize meaning, tone, and beauty
- Analyze how visual elements contribute to meaning, tone, and beauty
- Analyze how multimedia contributes to meaning, tone, and beauty
- (Not applicable to literature)
- Identify characteristics of a theme, topic, or genre
- Compare/contrast how stories of the same genre approach a similar theme or topic
- Identify/understand key ideas and details
- Identify/understand craft and structure
- Comprehend key ideas and details
- Comprehend craft and structure

## Speaking and Listening

- Identify key ideas from reading material
- Identify ways to listen effectively
- Describe discussion rules and roles
- Know how to pose questions and provide feedback
- Understand the importance of coming prepared to discussions
- Identify key ideas presented during discussion
- Relate information read to discussion topics
- Evaluate implementation of discussion rules and roles
- Formulate questions and responses based on discussion
- Explain topics using personal ideas, opinions, and reasoning
- Think critically about ideas posed
- Justify responses with evidence to support reasoning

- Engage in discussions by sharing knowledge
- Listen actively to discussions and presentations
- Follow agreed-upon rules during discussion
- Carry out assigned roles during discussions
- Pose and respond to specific questions to clarify understanding
- Connect comments to others' remarks
- Express ideas clearly
- Summarize a written text read aloud
- Summarize information presented in diverse media visually, quantitatively, and orally
- Identify speaker's points, claims, reasons, or evidence
- Summarize speaker's points
- Explain how a speaker's claim is supported
- Identify an opinion and facts
- Identify descriptive details
- Clearly pronounced and enunciate words at an understandable pace
- Sequence ideas logically
- Determine appropriate facts and details to support ideas or themes
- Determine when to add graphics, sound, or visual displays
- Add graphics, sound, and visual displays to enhance the main ideas or theme
- Use multimedia components in presentations
- Identify audience, task, and situation
- Identify characteristics of formal and informal speaking
- Distinguish between formal and informal speech
- Analyze situation to determine appropriate speech use
- Speak for a variety of contexts and tasks using formal English when appropriate

#### **Writing Standards**

- Explain and identify words, phrases, and clauses linking opinion and reasons
- Recognize organizational structures that provide logical grouping
- Explain writer's purpose
- Determine how to clearly introduce topic or text
- Formulate an opinion
- Provide logically ordered ideas and reasons that are supported by facts and details
- Establish links between opinions and reasons using words, phrases, and clauses
- Plan a concluding statement or section related to the opinion
- Write an opinion piece supported with reasons and information
- Opinion piece should include clear introduction
- Opinion piece should include statement of opinion
- Opinion piece should include strong organizational structure
- Opinion piece should include reasons supported by facts and details
- Opinion piece should include links between opinion and reasons
- Opinion piece should include a concluding statement or section
- Identify a topic
- Identify related information grouped logically
- Identify related information containing formatting, illustrations, and multimedia when aiding comprehension
- Identify topics developed with facts, definitions, concrete details, quotations, and examples
- Identify linked ideas within categories of information
- Use precise language and domain-specific vocabulary
- Identify concluding statement or section
- Develop a clearly written topic
- Develop related information grouped logically
- Develop related information containing formatting, illustrations, and multimedia
- Develop topics with facts, definitions, concrete details, quotations, and examples
- Develop linked ideas within categories
- Determine appropriate words and phrases that link ideas within and across categories

- Determine a concluding statement or section
- Create informative/explanatory texts that include clear topic
- Create informative/explanatory texts that include a general observation and focus
- Create informative/explanatory texts that include related information grouped logically
- Create informative/explanatory texts that include related information that contain formatting
- Create informative/explanatory texts that include related information that contain illustrations and multimedia
- Create informative/explanatory texts that include a topic developed with facts, definitions, concrete, details, quotations, and examples
- Create informative/explanatory texts that include ideas linked in and across categories
- Create informative/explanatory texts that include precise language and domain-specific vocabulary
- Create informative/explanatory texts that include a concluding statement
- Describe the use of story elements in narratives
- Describe the characteristics of narratives
- Explain how the sequence of events affects the story's conclusion
- Recognize the transitional words
- Explain how transitional words, phrases, and clauses advance the sequence of events
- Describe narrative techniques (dialogue, description, and pacing)
- Establish a situation, narrator and/or characters
- Sequence events logically resulting in a conclusion
- Use a variety of transitions
- Use dialogue and description to develop experiences and events
- Use concrete words and phrases and/or sensory details to develop experiences or events
- Develop characters through dialogue, description, actions, and reactions
- Write a narrative that establishes a real or imagined situation, using effective technique, and clear event sequences
- Write a narrative that uses dialogue, descriptions, concrete words and phrases and/or sensory details
- Write a narrative that uses transitional words or phrases
- Write a narrative that provides a conclusion
- Analyze the reason for writing to decide the task, purpose, and audience
- Determine suitable idea development strategies
- Determine suitable organization
- Produce a writing piece with clear, cohesive idea development, and organization
- Recognize how to plan, revise, edit, rewrite, and try a new approach to writing
- Know how to edit for conventions
- Develop and strengthen writing by planning, revising, editing, rewriting, and trying a new approach
- Use keyboarding skills
- Use word processing to produce and publish writing
- Use the internet to communicate with others
- Evaluate the technology tools for producing and publishing writing
- Evaluate the technology for collaborating with others
- Use technology to develop, revise, edit, and publish writing
- Use technology to communicate and collaborate
- Use keyboarding skills to type one page
- Identify various research sources
- Identify the different aspects of a topic
- Discriminate between various research sources
- Compare/contrast information from various research sources
- Interpret information derived from various sources
- Conduct short research projects investigating different aspects
- Participate in short research and writing projects
- Conduct investigations on different topical aspects
- Question information to build topical knowledge
- Recall and gather relevant information from print and digital sources
- Identify source list
- Summarize information in notes and finished work
- Paraphrase information in notes and finished work

- Identify key ideas and details to support conclusions
- Cite textual evidence to analyze explicit text
- Draw evidence as support for research
- Analyze key ideas and details as evidence of understanding text
- Reflect on key ideas and details as evidence of understanding text
- Identify the various purposes for writing
- Identify and understand the various organizational structures
- Identify and understand different genres or purposes for writing
- Determine when to write for short or extended time frames
- Determine the appropriate organizational structure for specific audiences and purposes
- Write for various purposes and to various audiences for short or extended time frames
- Write for a range of discipline-specific tasks, purposes, and audiences

## MATH

Fifth grade is a milestone and a pivot point for students. The classroom focus on arithmetic during the elementary grades will develop into a more formal study of algebra in middle school. To be ready for algebra, students must have an understanding of fractional arithmetic, in part because even simple equations cannot be solved without fractions. Because of this, whole-number arithmetic comes mostly to a close in 5th grade, while multiplying and dividing fractions becomes a major focus.

### HELP YOUR CHILD LEARN AT HOME

Look for “word problems” in real life. Some 5<sup>th</sup> grade examples might include:

- Doing arithmetic with decimals, for example when balancing a checkbook.
- Multiplying with fractions – for example, if you used about  $\frac{2}{3}$  of a  $\frac{3}{4}$ -cup measure of vegetable stock, then how much stock did you use? About how much is left?
- Using the length, width, and depth of a garden plot to determine how many bags of garden soil to buy.

### GEOMETRY

- Define the coordinate system
- Identify the x and y axis
- Locate the origin on the coordinate system
- Identify coordinates of a point on a coordinate system
- Recognize and describe the connection between the ordered pair and the x and y axis from the origin
- Graph points in the first quadrant
- Interpret coordinate values of points in real world context and mathematical problems
- Represent real world and mathematical problems by graphing points in the first quadrant
- Recognize that some two-dimensional shapes can be classified into more than one category based on their attributes
- Recognize if a two-dimensional shape is classified into a category, that it belongs to all subcategories of that category
- Recognize the hierarchy of two-dimensional shapes based on their attributes
- Analyze properties of two-dimensional figures in order to place into a hierarchy
- Classify two-dimensional figures into categories and/or subcategories based on their attributes

### MEASUREMENT AND DATA

- Recognize units of measurement within the same system
- Divide and multiply to change units
- Convert units of measurement within the same system

- Solve multi-step, real world problems that involve converting units
- Identify benchmark fractions
- Make a line plot to display a data set of measurements in fractions of a unit
- Solve problems involving information presented in line plots which use fractions of a unit by adding, subtracting, multiplying, and dividing fractions
- Recognize that volume is the measurement of the space inside a solid three-dimensional figure
- Recognize a unit cube has 1 cubic unit of volume and is used to measure volume of three-dimensional shapes
- Recognize any solid figure packed without gaps or overlaps and filled with  $n$  unit cubes indicates the total cubic units or volume
- Measure volume by counting unit cubes, cubic cm, cubic in, cubic ft, and improvised units
- Identify a right rectangular prism
- Multiply the three dimensions in any order to calculate volume (Commutative and Associative properties)
- Know the “B” is the area of the base
- Recognize volume as additive
- Develop volume formula for a rectangle prism by comparing volume when filled with cubes to volume by multiplying the height by the area of the base, or when multiplying the edge lengths (  $L \times W \times H$  )
- Apply the following formulas to right rectangular prisms having whole number edge lengths in the context of real world mathematical problems: Volume = length x width x height Volume = area of base x height
- Solve real world problems by decomposing a solid figure into two non-overlapping right rectangular prisms and adding their volumes
- Find the volume of a right rectangular prism with whole number side lengths by packing it with unit cubes

## **NUMBER AND OPERATIONS IN BASE TEN**

- Recognize that in a multi-digit number, a digit in one place represents 10 times as much as it represents in the place to its right and  $1/10$  of what it represents in the place to its left.
- Translate between powers of 10 written as 10 raised to a whole number exponent, in expanded form, and standard notation
- Explain the patterns in the number of zeros of the product when multiplying a number by powers of 10
- Explain the relationship of the placement of the decimal point when a decimal is multiplied or divided by a power of 10
- Represent powers of 10 using whole number exponents
- Read and write decimals to thousandths using base-ten numerals, number names, and expanded form
- Use  $>$ ,  $=$ , and  $<$  symbols to record the results of comparisons between decimals
- Use knowledge of base ten and place value to round decimals to any place
- Compare two decimals to the thousandths, based on the place value of each digit
- Use knowledge of base ten and place value to round decimals to any place
- Fluently multiply multi-digit whole numbers using the standard algorithm
- Find whole-number quotients of whole numbers with up to four-digit dividends and two-digit divisors
- Use strategies based on place value, the properties of operations, and/or relationship between multiplication and division to solve division problems
- Illustrate and explain division calculations by using equations, rectangular arrays, and/or area models
- Add, subtract, multiply, and divide decimals to hundredths using concrete models or drawings and strategies based on place value, properties of operations, and/or the relationship between addition and subtraction
- Relate the strategy to a written method and explain the reasoning used to solve decimal operation calculations

## **NUMBER AND OPERATIONS – FRACTIONS**

- Generate equivalent fractions to find the like denominator
- Solve addition and subtraction problems involving fractions (including mixed numbers) with like and unlike denominators using an equivalent fraction strategy
- Generate equivalent fractions to find like denominators
- Evaluate the reasonableness of an answer, using fractional number sense, by comparing it to a benchmark fraction
- Solve word problems involving addition and subtraction of fractions with unlike denominators referring to the same whole

- Interpret a fraction as division of the numerator by the denominator
- Interpret a remainder as a fractional part of the problem
- Solve word problems involving division of whole numbers leading to answers in the form of fractions or mixed numbers
- Multiply fractions by whole numbers
- Multiply fractions by fractions
- Interpret the product of a fraction times a whole number as total number of parts of the whole
- Determine the sequence of operations that results in the total number of parts of the whole
- Interpret the product of a fraction times a fraction as the total number of parts of the whole
- Represent fraction products as rectangular areas
- Justify multiplying fractional side lengths to find the area is the same as tiling a rectangle with unit squares of the appropriate unit fraction side lengths
- Find area of a rectangle with fractional side lengths using different strategies
- Model the area of rectangles with fractional side lengths with unit squares to show the area of rectangles
- Know that scaling (resizing) involves multiplication
- Know that multiplying whole numbers and fractions results in products greater than or less than one depending upon the factors
- Compare the size of a product to the size of one factor on the basis of the size of the other factor without performing the indicated multiplication
- Draw a conclusion multiplying that a fraction greater than one will result in a product greater than the given number
- Draw a conclusion that when you multiply a fraction by one, the resulting fraction is equivalent
- Draw a conclusion that when you multiply a fraction by a fraction, the product will be smaller than the given number
- Represent word problems involving multiplication of fractions and mixed numbers
- Solve real world problems involving multiplication of fractions and mixed numbers
- Know the relationship between multiplication and division
- Interpret division of a unit fraction by a whole number and justify your answer using the relationship between multiplication and division, by creating story problems, using visual models, and relationship to multiplications, etc.
- Interpret division of a whole number by a unit fraction and justify your answer using the relationship between multiplication and division, and by representing the quotient with a visual fraction model
- Solve real world problems involving division of unit fractions by whole numbers other than 0 and division of whole numbers by unit fractions using strategies such as visual fractions models and equations

#### **OPERATIONS AND ALGEBRAIC THINKING**

- Use order of operations including parenthesis, brackets, or braces
- Evaluate expressions using the order of operations (including using parenthesis, brackets, or braces)
- Interpret numerical expressions without evaluating them
- Write numerical expressions for given numbers with operation words
- Write operation words to describe a given numerical expression
- Generate two numerical patterns using two given rules
- Form ordered pairs consisting of corresponding terms for the two patterns
- Analyze and explain the relationships between corresponding terms in the two numerical patterns
- Graph generated ordered pairs on a coordinate plane

# SOCIAL STUDIES

## ECONOMICS

### Production/Consumption/Distribution:

- Explain how the United States and its neighbors are economically interdependent
- Examine the impact of the Industrial Revolution on the United States
- Identify the impact of distribution of goods on the growth of cities

### Exchange:

- Explain the consequences of economic growth and depression

## GEOGRAPHY

### Location:

- Identify the fifty states and their capitals

### Map Skills:

- Map the fifty states and their capitals
- Measuring on a map
- Apply latitude, longitude, and scale on a map
- Use different types of maps

### Regions:

- Recognize countries of the Americas

### Place:

- Explain how climate affects people
- Identify different cultures within the United States

### Movement:

- Identify the connection between communication and transportation

## HISTORY

### Time:

- Describe sequence of events of the exploration & settlement of the U.S.
- Use historical tools to draw conclusions about the past
- Compare U.S. communities past and present

### People:

- Identify explorers to the Americas
- Identify various groups who colonized America & describe the growth of the U.S.
- Describe the diverse American Indian cultures found in the Americas

### Events:

- Describe the wars that affected the growth & expansion of the U.S.
- Describe the cause & effects of U.S. involvement in wars
- Analyze current events in the U.S.

## POLITICAL SCIENCE

### Citizenship:

- Demonstrate the rights and responsibilities of citizens
- Recite and understand the National Anthem
- Laws
- Explain how a bill becomes a law at the federal level
- Understand the rights and responsibilities in the Bill of Rights

### Government:

- Understand the formation of political parties
- Describe a democratic system of government
- Define a constitution and describe its contents

## BEHAVIORAL SCIENCE

### Individual:

- Describe how individuals contribute to the identity of the United States

### Institution:

- Explain how family, school, church, and government contribute to U.S.

**Society:**

- Explain how U.S. contributes to the world
- Explain the impact of world events on the United States
- Identify contributions of cultural groups in the U.S.

**CATHOLIC SOCIAL TEACHINGS****Life and Dignity of the Human Person:**

- Begins to develop skills for conflict resolution
- Identifies ways to prevent prejudice/discrimination at school and play
- Recognizes and respects the qualities of a dignified life

**The Call to Family, Community, and Participation:**

- Recognizes and discusses the value of the human family
- Identifies Jesus as a member of a community in addition to being part of a family
- Applies the teachings of Jesus to Community
- Is involved in service projects and identifies these with Christian community

**The Rights and Responsibilities of the Human Person:**

- Applies basic Christian attitudes and skills in solving arguments and conflicts
- Articulates basic human rights and responsibilities
- Prays the Prayer of St. Francis in order to be sustained in fighting injustice

**Option for the Poor and the Vulnerable:**

- Understands Jesus' teachings about serving others
- Practices behaviors that help others
- Uses special individual talents to assist those in need of help
- Can tell stories about what poor children and children who are not poor have in common

**Dignity of Work and the Rights of Workers:**

- Shows respect for the value of all classmates work
- Can discuss the many different types of work roles and professions with respect
- Gives examples of how different kinds of work call forth different talents
- Demonstrates how all types of work contribute to the good of the whole

**Solidarity of the Human Family:**

- Identifies oneself as belonging to a family of global people where there are many differences
- Recognizes the values of our global neighborhood and cultures
- Recognizes and respects the uniqueness of the individual cultures throughout the world
- Identifies racial prejudice and demonstrates an acceptance of people from a race other than one's own

**Care for God's Creation:**

- Explains how the environment is God's creation and ours to respect
- Demonstrates that we all have a role to play in preserving the environment
- Gives examples for daily life of conserving the environment

# SCIENCE

## EARTH SCIENCE

### Weather:

- Observe that weather instruments measure temperature, air pressure, wind direction and speed, and precipitation
- Use various weather instruments to collect data and make predictions
- Illustrate that weather maps use symbols to display weather data

### Space:

- Understand objects in the solar system are in constant motion caused by natural forces which impact many changes we see in our world
- Identify constellations and their position in relation to the Earth
- Know that planets look like stars, but over time they appear to wander among the constellations

### Earth's Structure/Composition:

- Explain how metamorphic rocks are formed in the Earth's crust by pressure, heat, and water
- Investigate how sedimentary rocks form when sediment settles and becomes compacted
- Recognize how igneous rocks are created when molten rock cools and hardens

## PHYSICAL SCIENCE

### Sound and Light:

- Investigate that light travels in straight paths
- Discover that white light is composed of colors that can be revealed and separated using a prism
- Identify reflection, refraction, and absorption as properties of light
- Observe that concave and convex lenses can change the path of light
- Investigate how light is a form of energy
- Explain how people use light in many ways
- Explain how sound is caused by vibrations
- Discover that pitch is affected by frequency
- Infer that sound travels in waves

### Matter:

- Investigate substances that dissolve to form solutions

### Forces/Motion and Energy:

- Investigate how changing the weight, size, shape, or material of an object will change the way it moves through the air
- Demonstrate the motion of an object can be described by tracing and measuring its position over time
- Explain that when a force is applied to an object, the object starts moving, stops moving, speeds up, slows down, or goes in a different direction
- Identify the relationship between the strength of a force and its effect on an object
- Identify conductors and their affect on the movement of heat
- Observe that objects that travel through the air are acted upon by the forces of thrust, lift, drag, and gravity
- Investigate that motors can be powered by electrical energy

### Electricity/Magnetism:

- Investigate magnetic attraction to steel and iron materials
- Know that static electricity produces positive and negative charges: like charges repel, opposites attract

## LIFE SCIENCE

### Animals:

- Behavior
  - Know that an animal's behavior is influenced by internal cues and external cues

### Plants:

- Characteristics
  - Recognize how plants capture energy from the sun to produce food through photosynthesis
- Adaptations
  - Know that plant behavior is influenced by internal cues and external cues

- Know that plants have senses that help them to detect these cues

**Environment:**

- Adaptations
  - Describe how organisms' adaptive characteristics affect their survival
- Interaction of Living Things
  - Know that all organisms cause changes in their environments and these changes can be beneficial or detrimental
  - Know that an organism's patterns of behavior are related to the nature of that organism's environment
  - Explain that energy is transferred through food chains
  - State that a food web is a number of connected food chains

**Human Body:**

- Explain that the skeletal, muscular, circulatory, and respiratory systems interact with one another and perform specific functions

## RELIGION

**Creedal Church:**

- Explains how environment is God's creation and ours to respect
- Knows that God is the Creator, all-powerful, who made the world good
- Knows that the human race has a common origin reflected in the Adam and Eve story
- Knows and expresses belief that Jesus is the Son of God and the Word Made Flesh
- Understands Jesus as Savior and that "Jesus" means "God Saves"
- Understands that "Kingdom/Reign of God" is reflected in the good that happens in the world
- Knows and applies the concept of sacramentality: that Christ's life-death-resurrection is celebrated at liturgy
- Identifies ways that the Church carries on the mission of Jesus under the leadership of popes and the bishops
- Explains the communion of saints
- Identifies past and present Christian role models, e.g., patron saints
- Knows that Mary is the Mother of God as she is the mother of Jesus the Christ
- Understands that Christ's death and resurrection were part of God's plan
- Knows that the Assumption celebrates Mary taken to heaven, body and soul
- Knows that after death comes judgment which leads to heaven, hell or purgatory
  - Knows an overview of the Bible, understanding that the Old Testament is fulfilled in the New Testament
  - Is able to locate and read from the Bible the stories for this age group as listed, e.g., Genesis, chapters 1-3, two versions of the creation story
  - Understands that there is one God (Deuteronomy 6:4-5)
  - Knows that the Holy Spirit works in the Church, in the Scriptures and in the lives of people as at Pentecost (Acts 2:1-4, 17)
- Knows about human sexual development and its sacredness
- Knows and lives the belief that all life is sacred

**Liturgy/ Sacrament:**

- Knows the names, meanings, signs and symbols of each of the seven sacraments
- Celebrates the sacrament of Reconciliation
- Participates in the preparation of Eucharistic liturgies with class or group
- Recognizes the liturgical calendar and can explain the seasons of the Church year, their meanings and color
- Knows that the baptized share in the priesthood of Christ
- Understands the Sacrament of Holy Orders as the way Christ continues to preach and sanctify
  - Is able to locate, read from the Bible and understands each story listed below as it relates to the Scriptures
  - Experiences water, bread, oil and light as sacramental symbols (John 4:4-42)
  - + Recognizes Christ's presence at Mass: in the assembly, the priest-president, the proclamation of the Word and especially in the Bread and Wine (John 6:1-58)
  - Recognizes the meaning and celebration of the Sacred Triduum and Easter as our central feast – Anointing at Bethany (Mark 14:3-9)
  - Knows that Baptism forgives original and personal sin – Nicodemus (John 3:1-21)
  - Knows Confirmation and Baptism relate to the mission of Jesus (Mark 1:9-11, Matthew 3:13-17); and service

(Mark 10:44)

- Understands that in the Sacrament of Matrimony, the family is seen as the “domestic Church” (John 2:1-11)
- Understands the healing power of Christ in the Sacrament of the Sick (James 5:14-15)

**Moral Life:**

- Understands that the presence of sin or evil in the world is “original sin” into which we are all born
- Recognizes attitudes and actions that are sinful or selfish
- Acts out of the belief that mercy and justice are essential to Christian living
- Follows Catholic Social Justice teaching by reaching out to others through positive words and actions
- Distinguishes between mortal (serious) and venial sin
- Has a working knowledge of the Beatitudes and Commandments and can apply them to daily life
- Understands the meaning of the four cardinal virtues: prudence, justice, temperance and fortitude
  - Practices forgiveness and being forgiven and knows forgiveness stories in Bible, e.g., (Matthew 18:21-22)
  - Begins to be aware of the need for on-going conversion (1Corinthians 13:4-8)
- Identifies private and special body parts and touches which can make one feel uncomfortable
- Can define bullying and harassment and recognizes when it occurs
- Knows how to use conflict management skills

**Christian Prayer**

- Participates in prayer services and other devotions, e.g., rosary, stations of the cross
- Prays the Our Father, Apostles Creed, Nicene Creed
- Knows how to pray the rosary
- Recognizes that Jesus prayed at decisive times in his life
- Prays to the saints in union with the Father, Son and Holy Spirit
- Prays in harmony with the seasons of the Church Year
- Understands the difference between the Mass, other communal prayer and private prayer
- Uses Scripture as a source of prayer and reflection
